

## Sales List

I will be selling a large part of my collection over the next few years so that my family is not left with this mess at my death. Just to be upfront, I don't have to sell this stuff, so I will price it what I feel it is worth to me.

In addition to the stuff below, I have quite a bit of NOS parts, if you are looking for stuff for mainly a WD or WD45, I probably have it. I do have a few parts for the B, CA, and D19 tractors, as well as some implements. I do have them organized by part number so if you have a part number, I can tell you pretty quickly whether I have it or not.

If I have room for it on my trailer, I could bring to the 10<sup>th</sup> Annual Exclusive AC Swap Meet in Boonville, MO March 5-6, 2021 at no charge as long as its paid for.

### WD45 Diesel Items

- Fuel Pressure Gauge, nos
- Ether Setup, nos in box
- TB Gauges, nos
- Bosch Final Filter, nos
- AM Bosch PSB gasket kit, nos
- Injection Pump Head, stuck
- Injection Pump, with gasket kit, tested on tractor, ran great, have video
- Injection Pump, with gasket kit, tested on tractor, ran great, have video
- Hood with factory power steering holes
- Clutch Pedal
- Frame Rails
- throttle rod with fuel shut off lever/spring
- fuel shut off lever/spring
